

Reach Stacker RFQ Addendum #1
8/20/21

1.) My question is regarding capacity. With our model 4638, we are higher capacity in rows 1 and 2 than on the bid. We are 44,000 lbs in row 3 and your requirement is 46,000 lbs. From here we either go to the same wheelbase and use the load jack version to get to much higher capacity than your 46,000lbs or extend wheelbase by 3 feet and get to the same place without load jacks. This is all assuming Powered Pile Slope is not used on the machine which is not on the bid spec.

The MPA will allow 44,000lbs in row 3 as an approved equal.

2.) Which machines are you currently using?

We are currently using Toyota THD9900-R60 and Kalmar DRF450-65S5

3.) Rider B, Terms and Conditions Section 15. STATE HELD HARMLESS The Supplier requests this language be added:

-In no event shall the Supplier be liable for loss of production, cost of capital, loss of profit, loss of use, loss of data, or increased expense of use of the equipment or plant, loss of contract, or for any indirect, incidental, special, punitive or consequential damage or loss. Remedies of the Customer set forth in the contract are exclusive.

-In no event shall the Supplier's total liability under the contract exceed 100% of the contract price.

The winning bidder is expected to enter a contract substantially similar to the form contract in the bid package, and failing to negotiate successfully to conclusion may cause the winning bidder to forfeit a conditional award.

4.) Regarding Appendix B, page numbered 11, *Base Specifications-Camera System*

What are you trying to monitor with the side view cameras? Left and right views perpendicular to the operator or machine, or left and right sides along the chassis fore and aft?

Left and right sides along the chassis fore and aft.

5.) Regarding * Appendix B, page numbered 11, *Paint and Markings*

A) Please send a photo showing where the MPA logo is installed on existing machines.

The MPA will not require a logo to be placed on the machines.

B) Is MPA supplying the physical vinyl graphics or only the artwork file?

See above, bidders can ignore this requirement.
